FullHouse - All Levels

FullHouse:

To qualify, the dog has to accumulate enough points by successfully completing obstacles, including at least:
 3 x 1-point obstacles (bar jumps)
 2 x 3-point obstacles (tunnels, panel jump)
 1 x 5-point obstacle (joker)

All obstacles can be completed twice successfully for points.

Combo must be taken in flow.

Point accumulation ends once the horn sounds, then there are 5 seconds for the dog to touch the table and stop the clock without penalty. For every second the dog is over these additional 5 seconds, 1 point will be deducted from the total points accumulated. Qualifying occurs if enough points remain after excess time is deducted from the total points accumulated.

The table is live as soon as timing starts and timing will stop as soon as the dog touches the table, even if the horn has not sounded. The handler can choose to end the run at any time by directing the dog to the table.

Obstacle Point Values:

1 point - bar jumps
 3 points - tunnels, panel jump
 5 points (jokers) - double jump, combo, weaves

Total Points to Q:

Level	Reg/Vet	Enth/Spec
1	19	17
2	21	19
3	23	21
5C	25	23

Course Time:

4" / 8" / 12" - 40 seconds (plus 5 seconds to reach table)
 16" / 20" / 24" - 35 seconds (plus 5 seconds to reach table)
 16" Vets (jumping 12") - 35 seconds (plus 5 seconds to reach table)
