

Snooker 3,5,C

For the 4 legged part of this team. As you enter the ring for snooker remind your 2 legged partner that your plan has red, color, red, color, red, color. Should your partner cue you at the wrong time and you drop a red bar, you need to find another red. Each red is only used once. If you happen to drop a color you will get a zero and proceed to the next obstacle in your sequence. This has completed the opening, follow 2 thru 7 to complete the closing. When you finish the closing or happen to hear THANK YOU, take your handler directly to the finish jump.

Today #2, is NOT bi-directional in the closing. The start line is not bi-directional. There is a combo on the course, in the opening just get all parts done, any direction or flow is okay.

Dogs enter at #6 or the horn.
